Professional Summary

Full-stack developer specializing in React/Next.js, Node.js/Express.js, and PostgreSQL – the exact stack that ships real products. Experienced in building production-ready applications end-to-end, from pixel-perfect responsive UIs to scalable backend APIs and database architecture. Based in Islamabad with a track record of tackling real engineering challenges across AI, e-commerce, and social-impact startups. Quick learner who thrives on building, breaking, and fixing things in fast-paced environments.

Experience

Full Stack Web Developer Intern

Mar 2025 – Aug 2025

Galvan AI, Innovista Rawal

Islamabad, Pakistan

- Built and shipped responsive Next.js & React interfaces, reducing average page render time by ~30%.
- Architected 10+ RESTful API endpoints with Express.js and Python Flask, enabling real-time AI feature delivery to production users.
- Designed and optimized PostgreSQL database schemas and queries, improving data retrieval performance across key application modules.
- Contributed to bi-weekly agile sprints in a cross-functional team, consistently meeting sprint targets and shipping features on schedule.

Full Stack Web Developer (Remote)

2025

DeliveTree – Pakistani-Turkish Social Impact Startup

Remote

- Launched a full-stack platform spanning 3 modules (donation management, plantation tracking, volunteer coordination) using React, Node.js, and PostgreSQL.
- Developed 15+ reusable React components and Express.js API routes, reducing data retrieval latency by 25%.
- Integrated a real-time impact reporting dashboard with Supabase, giving stakeholders live visibility into campaign metrics.

Projects

Brio Bazaar – E-commerce Platform | React, Node.js, Express.js, PostgreSQL, Stripe

2024

- Built a full-stack storefront with product catalog, cart management, and Stripe checkout handling 200+ SKUs.
- Implemented RESTful API architecture with Express.js and PostgreSQL, including user authentication and order management.
- Integrated Gemini AI chatbot for real-time customer support, improving user engagement and reducing bounce rate.

ResumeAI Platform | React, Next.js, Node.js, Express.js, PostgreSQL, LLMs

Hackathon, 2025

- Scraped and matched 500+ job listings to candidate profiles via NLP, achieving ~85% relevance accuracy.
- Shipped AI mock interviewer and personalized learning roadmap generator under a 24-hour hackathon deadline.

DocIntel – Contract Safety Tool | React, Node.js, Python, OCR, LLMs

2025

- Processed 100+ freelance contracts with an OCR pipeline; LLM risk classifier achieved 90% precision on hidden clauses.
- Slashed contract review time from 45 minutes to under 5 minutes, directly improving freelancer safety.

Kova Beauty Website | Next.js, GSAP, Lenis

Client Project – Canada, 2025

- Delivered Awwwards-quality animated site for a Canadian client, scoring 95+ on Lighthouse performance with sub-2s load time.

Education

FAST NUCES – National University of Computer & Emerging Sciences

Islamabad, Pakistan

Bachelor of Science in Software Engineering – CGPA: 3.1 / 4.0

2022 – 2026

Certifications

AWS Certified Cloud Practitioner | Amazon Web Services

2025

AWS Cloud Web Application Builder | Amazon Web Services

2025

Microsoft Office Specialist (MOS) | Microsoft

2025

Achievements

3rd Place – AI & Web Engineering Hackathon

2025

- Secured 3rd place among 50+ competing teams by building an AI-powered platform under a 24-hour deadline, recognized for innovation in LLM integration and full-stack execution.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, GSAP, Lenis, Three.js

Backend: Node.js, Express.js, Python Flask, REST APIs, JWT Authentication, OAuth

Databases: PostgreSQL, Supabase, MongoDB, Prisma ORM, Mongoose

DevOps & Tools: Git, GitHub, Docker, Docker Compose, CI/CD Pipelines, Vercel, AWS (S3, Lambda)

Integrations: Stripe, Cloudinary, LLMs, NLP, OCR

Design: Figma, UI/UX Wireframing, Responsive Web Design
